

YOU COUNT! LET US COUNT YOU!

As part of its strategic plan to track OA's growth over the next five years, the Board of Trustees needs to determine the approximate number of members in the Fellowship now.

All registered OA groups with a current and accurate secretary's mailing address will be receiving a mailer from the World Service Office in July and August requesting a response to the question "*In a typical week, how many members regularly attend your meeting?*"

Please encourage your groups to respond. If a group does not receive a mailing, it might be that their mailing address is missing or inactive.

Thank you for doing this important service.

The World Service Office
